EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with John Carlson on 10/13/05. The amendment to claim 1, approved by the Applicant, was made in order to make it clear that the comparing step is explicitly performed prior to activation of the wrap mechanism. Thus, the functional limitation carries patentable weight in this apparatus claim.

The amendment to claim 12 was made for the same reason that the previous amendment to claim 18 was made. The wrap mechanism cannot be "stopped" since it was never started in the first place.

2. The application has been amended as follows:

In claim 1 line 7, "for comparing" was replaced with --programmed to compare--.

In claim 12 line 2, "stopping" was replaced with --inhibiting operation of--.

Drawings

3. Regarding Fig. 3, it is noted that the term "brick" is a term used in the art to mean "catalytic converter substrate".

Allowable Subject Matter

4. Claims 1-21 are allowed.

5. The following is an examiner's statement of reasons for allowance:

The prior art of record Irie et al. does not compare the identifier on the converter substrate to stored data prior to activation of the wrap mechanism. The tag information of Irie et al. is read *only after* the mat has been wrapped on the substrate (col. 27 line 63 – col. 28 line 23).

Although independent claims 8 and 16 recite only "substrate", it is noted that these claims have been search only in the context of catalytic converter substrates, since this is the only scope of enablement that is provided in the specification.

6. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Ryan A. Jarrett whose telephone number is (571) 272-3742. The examiner can normally be reached on 10:00-6:30 M-F.
